

Unlock Immediate Lab Transformation: Introducing Quickstart and Consult

Quickstart

Experience nearly all the benefits of Sentinel—without the wait. Quickstart empowers your lab to modernize workflows and realize net benefits immediately, all without requiring LIS integration. Get up and running fast, streamline documentation, and accelerate your path to optimized lab operations.

- No LIS integration required
- Rapid deployment for instant impact
- Modernize your workflow from day one

Consult

Break down barriers and connect your team like never before. Consult leverages system cameras and a secure web app to live broadcast your workspace, enabling staff to access expertise across your network—no matter where they are. Collaborate, consult, and elevate your lab's capabilities with real-time support.

- Live broadcast your workspace
- Access expertise from anywhere
- Seamless collaboration across locations
