Modernizing pathology with quality, efficiency and consistency in labs

vistapath

Sentinel Core at a glance

Vistapath's flagship product, Sentinel, is a first-of-its-kind pathology processing platform. Sentinel optimizes the grossing process using an AI-powered augmentation system. Sentinel Core seamlessly integrates with your lab's existing LIS workflow—helping technicians work faster and safer. Sentinel Core enables other platform products, including Sentinel Confirm, which integrates with digital pathology solutions.

Sentinel Quickstart at a glance

Sentinel Quickstart allows customers to immediately gain the benefits of digitizing their grossing workflow with an easy to use and deploy non-integrated version of the Sentinel.

Feature	Sentinel Quickstart*	Sentinel Core
Quality improvements - Reduced/ eliminated risk of tissue loss and mislabeling across all tissues	✔	✔
Automated Measurements	✔	✔
Gross Report Generated	✔	✔
Custom Deployment Based Upon Clinical Workflow	✔	✔
Sentinel Merge	✔	✔
Sentinel Link	✔	✔
Sentinel Consult	✔	✔
Sentinel Confirm	✘	✔
Service Contract Included	✔	✔
Cap Ex or Op Ex Purchasing Options Available	✔	✔
Intelligent Lab Automation: Histology Processing	✘	✔
Integrated Workflow into LIS	✘	✔

Upgrade to Sentinel Core is Available for Contract Life
